FEBRUARY 5 - FEBRUARY 28
1933

THE KANSAS CITY ART INSTITUTE
4415 WARWICK BOULEVARD

FOREWORD

IN THESE trying times it is encouraging to know that artists are carrying on, that they still have hope and ideals.

No group has suffered as have the artists; nevertheless the large number of works submitted for the Midwestern Exhibition and the high quality attained leads one to conclude that the spirit of the artist cannot be crushed, that the true artist is striving for an ideal and finds in the accomplishment his compensation.

The works on display are for sale and at reasonable prices. The Institute will be glad to advise anyone interested.

SCHOOL

A great school does not consist alone of a group of well equipped buildings and large numbers of students. It is measured by the high standing of the faculty in their respective departments, and the quality of instruction given. Upon this basis the Art School of The Kansas City Art Institute ranks among America's foremost schools of art.
